## The Planetary Kamea for Mercury

Kameas (cameas) are magickal squares, associated with the planets used for sigil construction. Sigils can be drawn on talismans, amulets, candles, or any other tool of the craft to personalize them.

"On penetrating into the sanctuary of the Kaballah, one is seized with admiration at the sight of a doctrine so simple and at the same time so absolute. The necessary union of ideas and signs, the consecration of the most fundamental realities by primitive characters, the trinity of words, letters and numbers; a philosophy simple as the alphabet, profound and infinite as the Logos; theorems more luminous and complete than those of Pythagoras; a theology which may be epitomized by counting on the fingers; an infinity which can be held in the hollow of an infant's hand; ten numerals and twenty-two letters, a triangle, a square, and a circle—such are the elements of the Kaballah, such are the primary principles of the written word, shadow of that Spoken Logos which created the world!"<sup>6</sup> So thought (Eliphas) Levi, and in truth one must wholeheartedly agree with him. For the admiration-compelling foundation of the Qabalah is a simple mathematical structure of symbols and numbers and names, utilizing ten numbers and the letters of the Alphabet of the Angels, as the Hebrew Alphabet has been named.

Now, the first thing you need to learn is that everyone's Qabalah is uniquely their own. Your Qabalah is not my Qabalah, nor anyone else's. A personal Qabalah is placed in your hands the moment you take up the study. It's alive and grows upon what you feed it. The more you learn, the more you use. No two students study or work the same.
