
QABALISTIC THYMES

E-NEWS FOR THE OAW QABALA STUDY GROUP

Volume 1, Issue 1

Welcome to the First Issue of Qabalistic Thymes.

You might ask what's with the name? The herb Thyme is a member of the mint family and as such is a very prolific plant. Additionally, there are hundreds of species of Thyme.

Thyme has been known since ancient times for its magical, culinary, and medicinal virtues. And its shrub like build offers shade and home to a variety of animal life. Tradition held that an infusion of thyme taken as a tea on midsummer's eve would enable one to see the fairies dancing.

So....In the spirit of the vast amount of knowledge, nuances and enrichment provided through study of the Qabala, what better spelling for "Thymes"

MORE CORRESPONDENCES:

PHYSICAL:

Noteworthy Read

Living Kabbalah
by Maggie Whitehouse

From the Book of QBL

.. we work at this level to awaken greater discrimination within our lives. That is the virtue we uncover for ourselves here- in Malkuth. We learn to discriminate between what is good, what is bad, where to move forward, where not to move, when to work and when to rest. Learning to discriminate and discover what is best for you as an individual. By doing so, we can begin to experience our “higher Selves”- this level of consciousness reveal to us those things hidden within our physical world or Universe. It reveals to us these things which we have trained ourselves to ignore or relegate to fantasy. This is the level wherein we can learn the realities of those we call “fairy”, “angel”, or “spirit guides”. And acknowledge the reality of the Divine potential within ourselves.....

Excerpted from: Qabala Magick by Ted Andrews - The Lesson of Malkuth

Another Leaf on the Vine

Malkuth and Prosperity

Key concepts are...

Manifestation
Abundance
Receiving
Giving

Food for thought?

“ you will get better prosperity results from eating just one course at a four-star restaurant, than you will by going to a fast-food restaurant a Dozen times..”
